

LANGUAGE IN THE GARDEN

PLANT WATER GROW. As we know, gardens need constant up keep and tending to, as do our language skills! This program is designed to create a comfortable environment for our clients/volunteers to improve their intermediate or advanced Spanish and English skills while volunteering for The Hunger Coalition. We would like to invite you to join us each week to spend time working in The Hope Garden to practice your language skills and learn more about another culture.

Each participant will complete the brief survey below, which will give us the information we need to pair participants up with a partner of similar interests and language skill level. We will gather once a week at The Hope Garden and a topic will be presented in the form of group conversation. During the second half, we will break out into one on one partner conversations with assigned partners. Participants will work together, side by side in the garden and take turns speaking in Spanish and English for a period of time that feels comfortable for each participant.

An example of some of the topics will be food, family, music, travel etc.

Please fill out the information below and return this form to Lorena Horne.

1. Name _____ Phone _____ email _____

2. Second language **English Spanish**

3. Describe knowledge level of second language: **Intermediate Advanced**

4. Do you have children? **Yes No** What ages? _____
